Wakefield Beasley & Associates Architects Provides Interior Design for Mixed Use Development at Vilano Beach

JACKSONVILLE, Fla. – Wakefield Beasley & Associates Architects, Inc., the award winning Atlanta architectural firm with offices in Jacksonville, is finishing interior design for Waters Edge at Vilano, in Vilano Beach, just north of St. Augustine.

Michele Porter, project manager for interiors in Wakefield Beasley’s Jacksonville office, said the 64,000-square-foot mixed use development will include 36 two- and three-bedroom condominiums on its 4.41-acre site located on A1A and Coastal Highway.

Porter said the condominium units will range from 1,800 square feet of living space to 2,400 square feet, and each will feature fire places, summer grills and an option for a gourmet kitchen.

“This product is designed to be different from anything else on the market,” said Porter. “Beautiful rotundas in each unit with custom porcelain tile patterns on the floors and stepped ceilings create a sense of arrival when you walk in the door. All interior finishes and detailing are specified for an upscale living experience,” she added.

Wakefield Beasley and Associates provided space planning and is finalizing interior finish selections and construction documents for the project.
