Newcom Development Breaks Ground on Mixed-Use Center

JACKSONVILLE, FL - Jacksonville based Newcom Development broke ground on the Greenland Commerce Center, a 215,000-square-foot mixed-use center in Jacksonville's Mandarin district, located on Greenland Chase Boulevard. Seeking to exceed the USGBC's Silver Benchmark in LEED accreditation, the project will be comprised of seven buildings featuring retail, office, industrial and flex space. Wakefield Beasley's Jacksonville office designed the project. *(Published in Southeast Real Estate Business, Volume 9, Issue 1, April 2008)*
